Summary of Options (Please send form at least two weeks prior to the start of your event to ensure availability):

Internet Option A – Shared Internet Line: If you are expecting limited use, only showing your website or checking emails you will only need this option. Please note that this is a shared line and multiple users may slow down access. The cost for this is \$150.00 +GST for the duration of the event and includes connection, service and usage.

Internet Option B – Dedicated Internet Line: If you are expecting high volumes of traffic, video streaming etc, you will require a dedicated line to accommodate the high level of usage at full speed ADSL. This private line is isolated from other users; therefore does not affect speed of access. The cost for this is \$350.00 +GST for the duration of the event and includes connection, service and usage.

Internet Option C – Shared Wireless: This option runs the same as Option A, but is wireless. A security password will be given on arrival at the venue.

Internet Option D – Dedicated Wireless: This option runs the same as Option B, but is wireless, a security password will be given on arrival at the venue.

Phone Line - Direct Dial-In (DDI) phone lines can also be used for EFTPOS, fax and dial-up internet access. These are available at \$89 +GST. Please note calls are additional - charged at Telecom standard rates. A pre-arranged number will be allocated and can be advised in advance.
