

Abstract:

Are your children safe on the internet?

Paul Duke

Senior Inspector, Department of Internal Affairs Censorship Compliance Unit, Southern Region.

What do you know about how your children access the Internet and what they do online? What are the risks? What should you know in order to keep them safe?

Inspector Duke offers advice for 'online safety' based on over 12 years' experience in investigating online offenders, and data from Australian and New Zealand research. Topics include the risks inherent in various technologies used (e.g., Peer-to-Peer software), children's access to online pornography, social network site profiles, online grooming, and cyber-bullying.
