

SCIENTIFIC PROGRAM SATURDAY 1 MAY

HOW MEETS WHY

Clinical Practice and the Science Behind it

0800 - 0830	Mihi, Opening Address Dr Leona Wilson (President, ANZCA); Dr Penny Briscoe (Dean, FPM); Assoc Prof Ross Kennedy (Convenor)	Town Hall Auditorium
0830 - 1000	Plenary Session <i>Chair: Dr Leona Wilson (President, ANZCA)</i>	
0830 - 0915	ANZCA ASM Visitor: Prof Talmage Egan (Ellis Gillespie Lecture) Pharmacodynamic interactions: hypnotics and opioids <i>Chair: Dr Penny Briscoe (Dean, FPM)</i>	
0915 - 1000	FPM ASM Visitor: Prof Jeffrey S Mogil (Michael Cousins Lecture) What's wrong with animal models of pain?	

KEY

MR = Meeting Room (Christchurch Convention Centre)

GR = Galaxy Room (Crowne Plaza Hotel)

1000 - 1030		Morning tea and Health Care Industry Exhibition					
Concurrent Session 1 Town Hall Auditorium	Concurrent Session 2 James Hay Auditorium	Concurrent Session 3 Cambridge Room	Concurrent Session 4 Conference Rooms 1 and 2	Concurrent Session FPM Limes Room	Poster Session Pre function Foyer	Workshops	PBLD and QA
Fast track surgery Chair: Dr Elizabeth Feeney	Medical professionals in distress - patient safety in jeopardy ? Chair: Dr Michelle Mulligan	Clinical trials group Chair: Assoc Prof David Story	Palliative care pointers: what can we learn? Chair: Dr Jeremy Foate	FPM: acute perioperative pain Chair: Prof Ted Shipton and Dr Brendan Moore	Moderated poster session: Pharmacology Poster Moderators: Prof Steve Shafer Dr Tim McCulloch	W1 Airway skills MR1&2 W2 Minimally invasive MR6 haemodynamic monitoring W3 Neonatal resuscitation MR5 W4 Patient history and MR3 examination W5 Transthoracic MR7 echocardiography (TTE)	P1 Cold and numb GR1 P2 Management of major GR2 pelvic trauma and massive transfusion P3 DIY echocardiography: GR3 friend or foe? Q1 Quality assurance GR4 session 1 (paediatrics)
1030 - 1115 Prof Michael "Monty" Mythen Fluids and drugs: what makes a difference	1030 - 1115 Dr Marion Andrew Communication, stress management and human factors	1030 - 1100 Assoc Prof David Story REASON: the final results	1030 - 1115 Dr Kate Grundy	1030 - 1100 Prof Richard Rosenquist Continuous wound infusion techniques in postoperative pain management			
1115 - 1200 Assoc Prof Andrew Hill Enhanced recovery after open colectomy- implementation at a public hospital	1115 - 1200 Mr Werner Naef Decoding behaviour – the missing link in people management	1100 - 1130 Ms Stephanie Poustie Research regulation: clouds on the horizon	1115 - 1200 Dr Amanda Landers	1100 - 1130 Assoc Prof Pam Macintyre Fast track rehabilitation after surgery			
		1130 - 1200 Assoc Prof Andrew Davidson International trials: the pain, the pain...		1130 - 1200 Prof Stephan Schug Persistent post surgical pain: risk factors and prevention			
1200 - 1330 Lunch and Health Care Industry Exhibition / Baxter Lunchtime Session				FPM meet and greet – Trainee lunch			
The eyes have it Chair: Dr Sharon King	Making your department hum Chair: Dr Graham Roper	Bariatric anaesthesia Chair: Dr Annette Turley	Obstetrics anaesthesia SIG Chair: Dr Nigel Skjellerup	FPM: research Chair: Prof Don Robertson	Moderated poster session: Regional anaesthesia and obstetric anaesthesia Poster Moderators: Prof Richard Rosenquist Dr Peter Hebbard	W8 The "key to me" – process MR3 communication model (PCM) Note: earlier start time of 1300 W6 Airway skills MR 1&2 W7 Neonatal resuscitation MR5 W9 Basic bike maintenance MR7	P4 A complicated nephrectomy GR1 P5 An unexpected GR2 intraoperative hypertensive crisis P6 Analgesia options for GR3 major upper abdominal surgery Q2 Quality assurance session 2 GR4 P32 The patient with cardiac MR4 failure requiring a laparotomy
1330 - 1400 Dr David Kent Laser refractive surgery	1330 - 1400 Dr Ross Kerridge "Tricks and traps" in developing better pre operative systems	1330 - 1400 Dr Tony Burn The pathophysiology of morbid obesity	1330 - 1400 Dr Pamela Flood Modeling the time course of labour pain and progress	1330 - 1400 Prof Maree Smith Frontiers of analgesic research			
1400 - 1430 Dr Phil Guise Sub - tenons block: an update	1400 - 1430 Dr Steve Watts Day surgery - what makes it work?	1400 - 1430 Mr Steve Kelly Bariatric procedures and metabolic possibilities	1400 - 1430 Dr Nolan McDonnell Resuscitation in the parturient	1400 - 1430 Prof Jeffrey S Mogil The nature and nurture of pain			
1430 - 1500 Prof Mark Elder Perioperative visual loss	1430 - 1500 Assoc Prof Tomas Corcoran Making research happen in your department	1430 - 1500 Dr Graham Sharpe Anaesthetic pearls for dealing with the morbidly obese	1430 - 1500 Dr Alicia Dennis The ROSE examination – transthoracic echocardiography for obstetric anaesthesia and obstetric critical care	1430 - 1500 Prof Christine Winterborn Free radical involvement in pain: some basic concepts			
1500 - 1530 Afternoon tea and Health Care Industry Exhibition							
Confessions of an academic anaesthetist: the how and the why of becoming a big name in anaesthesia Chair: Dr Richard French	Peri - operative cardiology Chair: Assoc Prof David Scott	Refresher session: unusual patients you may be asked to anaesthetise Chair: Dr Paul Smeele	Curriculum redevelopment – why meets how Chair: Ms Mary Lawson	FPM: pain assessment Chair: Dr Carolyn Arnold and Dr Frank New			
1530 - 1630 Panel question and answer session Prof Alan Merry Prof Paul Myles Prof Monty Mythen Prof Steve Shafer	1530 - 1615 Dr James Lai Pre operative cardiac investigation – when does it really make a difference? 1615 - 1700 Prof Gerard Manecke Intra operative haemodynamic monitoring	1530 - 1550 Dr Mark Shulman The HIV positive patient 1550 - 1610 Dr Bobby Manasiev The patient with someone else's heart and lungs 1610 - 1630 Dr Melissa James The patient who has had recent chemotherapy or radiotherapy 1630 - 1650 Dr David Whybrew The patient with von Willebrand disease	1530 - 1550 Ms Claire Byrne Ensuring everyone has a say! The process of ANZCA Curriculum Review 1550 - 1610 Ms Mary Lawson A new curriculum for the new millennium – curriculum review recommendations 1610 - 1630 Dr Lindy Roberts Outcomes of anaesthesia training – the ANZCA Curriculum Framework 1630 - 1650 Ms Felicity Hutton Training the trainers – The ANZCA Teacher Development and Support Programme. Panel discussion	1530 - 1550 Assoc Prof Michael Nicholas Assessment of patient with chronic pain 1550 - 1610 Prof Stephen J Gibson Assessment of pain in the geriatric patient 1610 - 1630 Dr Susan Lord Assessment of pain in the paediatric patient 1630 - 1650 Dr Michael Butler Incorporating integrative medicine in pain management Discussion		W10 Airway skills MR1&2 W11 CPR - adult MR6 W12 Neonatal resuscitation MR5 W8 The "key to me" – process MR3 communication model (PCM) continued	P8 The anorexic patient needing GR2 emergency orthopaedic surgery P31 Triage – A management GR3 tool for a mass casualty incident Q3 Quality assurance session 3 GR4
Please note: this particular session finishes at 1630							
1800 - 2030 College Ceremony							
2030 - 2330 College Ceremony Cocktail Reception							

SCIENTIFIC PROGRAM SUNDAY 2 MAY

0700 - 0815 **Breakfast Sessions** – refer page 35

0830 - 1000 **Plenary Session**

Chair: Dr Leona Wilson

0830 - 0915 **ANZCA New Zealand Visitor: Prof Michael "Monty" Mythen (Mary Burnell Lecture)**

Why is it easier to get doctors to the top of Mount Everest than it is to change their clinical practice?

Chair: Dr Penny Briscoe

0915 - 1000 **FPM New Zealand Visitor: Prof Richard W Rosenquist**

Perineural catheter techniques for postoperative pain management at home

Town Hall Auditorium

1000 - 1030 Morning tea and Health Care Industry Exhibition

Concurrent Session 1 Town Hall Auditorium	Concurrent Session 2 James Hay Auditorium	Concurrent Session 3 Cambridge Room	Concurrent Session 4 Conference Rooms 1 and 2	Concurrent Session FPM Limes Room	Poster Session Pre function Foyer	Workshops	PBLD and QA
Microbes and the anaesthetist Chair: Dr Chris Harrison	Neuroanaesthesia for the uninitiated: ...it's not exactly brain surgery is it?! Chair: Dr Tim Short	Paediatric anaesthesia for the occasional practitioner Chair: Dr Jeremy Foate	Diagnostic tests for unusual conditions Chair: Dr Vaughan Laurensen	FPM: Dean's Prize/free papers Chair: Assoc Prof Milton Cohen	Moderated poster session: Cardiac, cardiovascular or airway related	W13 Needle stick in the OR MR1&2 W14 Adult CPR Refresher MR6 W15 Basic ultrasound guided needling techniques MR5 W16 Blocks of the upper limb focusing on ultrasound guided interscalene / supraclavicular brachial plexus blocks MR3	P9 Using TEG to assess the bleeding patient GR1 P10 Obesity and obstetric anaesthesia GR2 P11 Critical incident monitoring from ANZTADC GR3 Q4 Quality assurance session 4 GR4
1030 - 1100 Dr Anja Werno Why should anaesthetists care about MRSA and VRE?	1030 - 1100 Prof Talmage Egan Neuroanaesthesia pharmacology: The basics	1030 - 1050 Dr Nicholas Marks A review of risk factors and the management of laryngospasm	1030 - 1050 Dr Terasa Bulger Malignant Hyperthermia Testing in 2010	Dean's Prize session and free papers Prof Tess Cramond Pleural plaques and pain – presentation pathogenesis plan of care	Poster Moderators: Prof Paul Myles Dr Richard Halliwell		
1100 - 1130 Dr Alan Pithie High risk needle stick injuries	1100 - 1130 Dr Craig Ellis Head trauma: What happens before the patient gets to the OR?	1050 - 1110 Dr David Linscott Evidence based anaesthesia for adenotonsillectomy	1050 - 1110 Dr "Buff" Maycock Skin testing after anaphylactoid reactions	Dr Rutha Nerlekar Open or closed questioning for pain during follow-up after caesarean section – A randomised trial			
1130 - 1200 Assoc Prof Lance Jennings Whatever happened to bird flu' and other viral pandemics	1130 - 1200 Dr Hamish Gray In the dark about anaesthesia for Interventional neuroradiology? Untangling coils, stents, glue and more!	1110 - 1130 Assoc Prof Manoj Karmakar Ultrasound guided peripheral nerve blocks in small children	1110 - 1130 Dr Sheila Barnett Plasma cholinesterase deficiency	Dr Paul Wrigley Brain circuitry underlying pain in response to imagined movement in people with spinal cord injury			
		1130 - 1150 Assoc Prof Andrew Davidson Post-op fluid management in children; how much sodium?		FPM Annual General Meeting Presentation of Dean's Prize and best free paper prize			

1200 - 1330 Lunch and Health Care Industry Exhibition / Registrars' Luncheon

Shoulders to the grindstone	Obstetrics	Specialist paediatric anaesthesia	Anaesthetists in management SIG: Strategy implementation: how to make your dreams a reality	FPM: Molecular biology	History of anaesthesia and resuscitation SIG	Moderated poster session:	W20	P7
Chair: Dr David Bain	Chair: Prof Warwick Ngan Kee	Chair: Dr Peter Kempthorne	Chair: Dr Daryl Williams	Chair: Prof Michael Cousins	Chair: Dr Christine Ball	Pre-operative assessment, bariatric anaesthesia and management/ strategic planning	W20 The "key to me" – process communication model (PCM) MR1&2	P7 A gynaecological patient, PONV and a mobile surgical bus MR3
1330 - 1350 Mr Alex Malone Applied anatomy of the shoulder	1330 - 1400 Dr Peter Moore The diabetic parturient	1330 - 1415 Assoc Prof Manoj Karmakar Ultrasound guided central neuraxial block in children	1330 - 1415 Dr Manuka Henare Strategy implementation in a cultural context	1330 - 1400 Assoc Prof Martin Kennedy Pharmacogenetics and pain management	1330 - 1400 MR7 Dr Jim Clayton The history of the Dunedin department of anaesthetics	Pre-operative assessment, bariatric anaesthesia and management/ strategic planning	Note: earlier start time of 1300	P12 Acute airway compromise... GR1
1350 - 1415 Mr Ian Penny Shoulder injuries and operations	1400 - 1430 Dr Peter Hebbard US guided central neuraxial block for challenging anatomy	1415 - 1500 Dr Ian McKenzie "Separation anxiety": anaesthesia for separation of conjoint twins	1415 - 1500 Dr Daryl Williams Taking hospital strategy to the next level: the business unit	1400 - 1430 Prof Evan Begg Individualising analgesic dosing	1400 - 1430 Dr Tony Newson Anaesthetic deaths in colonial New Zealand	Poster Moderators: Prof Dan Sessler Assoc Prof Jenny Weller	W17 Adult CPR Refresher MR6 W18 Basic ultrasound guided needling techniques MR5 W19 Block of the lower limb focusing on nerve stimulator and ultrasound guided femoral nerve block / psoas compartment block MR3	P13 The patient with cardiac failure requiring a laparotomy GR2 P14 Would a GA be easier? GR3 Q5 Quality assurance session 5 GR4
1415 - 1455 Dr Mike Fredrickson Perioperative analgesia for shoulder surgery	1430 - 1500 Dr David Elliott Remifentanil - use in labour			1430 - 1500 Prof Peter Joyce The evolving neurobiology of depression	1430 - 1500 Prof Barry Baker The history of academic anaesthesia in New Zealand			

1500 - 1530 Afternoon tea and Health Care Industry Exhibition

On the shoulders of giants	Anaesthesia and critical care in unusual and transport environments (ACCUTE) SIG	Regional anaesthesia SIG: I do it my way	Trauma SIG	FPM: Best practice	W21	P15
Chair: Dr Mark Waddington	Chair: Dr Alan MacKillop	Chair: Dr Neil MacLennan	Chair: Dr Chris Bain	Chair: Dr David Jones and Prof Ted Shipton	W21 Basic bike maintenance MR7	P15 The morbidly obese patient presenting for elective laparoscopic cholecystectomy GR1
1530 - 1600 Prof Kate Leslie A virtual neuroanaesthetic circa 1910	1530 - 1600 Dr Steven Cook The pacific tsunami response; have we learned from the past?	1530 - 1550 Dr Rob Burrell Regional anaesthesia using nerve stimulation	1530 - 1600 Dr John Moloney Emergency and preoperative management of lower limb fractures	1530 - 1600 Prof Richard Rosenquist New anticoagulants and regional anaesthesia catheter techniques (neuraxial, perineural)	W22 Adult CPR Refresher MR6 W23 Blocks of the lower limb focusing on nerve stimulator and ultrasound guided sciatic nerve block – transgluteal / popliteal approaches MR5	P16 Peripheral regional anaesthesia for lower limb surgery GR2
1600 - 1630 Prof Steve Shafer A virtual trauma anaesthetic circa 1941	1600 - 1630 Dr Tim Harraway Taking the mountain to Mohammed; delivering a critical care capacity to very remote areas	1550 - 1610 Dr Andrew Cameron Regional anaesthesia using nerve stimulation and ultrasound guidance	1600 - 1630 Dr Jeremy Hickling Long bone fractures - when should you let the surgeons operate and for how long - what is the evidence?	1600 - 1630 Assoc Prof Pam Macintyre Acute pain management: does current evidence provide a guide for improved practice?	W24 Advanced ultrasound guided block techniques MR3	P17 A patient on anticoagulants requiring emergency surgery GR3
1630 - 1700 Dr David Sidebotham A virtual cardiac anaesthetic circa 1967	1630 - 1700 Dr Mary Brooker Challenges of paediatric anaesthesia in East Timor	1610 - 1630 Dr James King Regional anaesthesia using ultrasound guidance	1630 - 1700 Dr James French Fractured neck of femur - when should you let the surgeons operate?	1630 - 1700 Prof Michael Cousins New strategic plan for pain medicine in Australia	W20 The "key to me"... process communication model (PCM) – continued MR1&2	Q6 Quality assurance session 6 GR4

1700 – 1730 **ANZCA Annual General Meeting**

1730 - 1930 Health Care Industry Cocktail Reception

KEY

MR = Meeting Room (Christchurch Convention Centre)

GR = Galaxy Room (Crowne Plaza Hotel)

SCIENTIFIC PROGRAM MONDAY 3 MAY

0700 - 0815 **Breakfast Session** – refer page 35

0830 - 1000 **Plenary Session**
Chair: Prof Alan Merry

Gilbert Brown Prize session

Dr Andrew Braun
Risk disclosure survey: What are we telling our patients?

Dr Alicia Dennis
Transthoracic echocardiography in untreated preeclampsia

Dr Forbes McGain
Financial and environmental costs of drug trays

Dr Tuong Phan
Non-invasive cardiac output monitors in open heart surgery

Dr Gordon T. Wong
Cardiac pre-conditioning in rats with intrathecal morphine

Town Hall Auditorium

1000 - 1030 Morning tea and Health Care Industry Exhibition

Concurrent Session 1 Town Hall Auditorium	Concurrent Session 2 James Hay Auditorium	Concurrent Session 3 Cambridge Room	Concurrent Session 4 Conference Rooms 1 and 2	Concurrent Session 5 Limes Room	Poster Session Pre function Foyer	Workshops	PBLD and QA
<p>Substance abuse and the anaesthetist Chair: Dr Lindy Roberts</p> <p>1030 - 1040 Introduction</p> <p>1040 - 1110 Prof Doug Sellman The 10 most important things known about addiction</p> <p>1110 - 1130 Dr Rob Fry The demographics of substance abuse in anaesthetists</p> <p>1130 - 1150 Dr Vaughan Laurenson The perils of investigating suspicions of substance abuse</p>	<p>Clinical pharmacology Chair: Dr Kerry Brandis</p> <p>1030 - 1100 Prof Tony Gin Drugs in pregnancy</p> <p>1100 - 1130 Assoc Prof Ross Kennedy Effect site concentrations and volatile anesthetics?</p> <p>1130 - 1200 Prof Mike Irwin Perioperative use of gabapentanoids</p>	<p>Anaesthesia: Pacific and beyond Chair: Dr Wayne Morriss</p> <p>1030 - 1045 Mr Kiki Maoate Building self - sufficiency in the Pacific: a surgical perspective</p> <p>1045 - 1100 Dr Ron Pereira A doctor without borders in Sri Lanka</p> <p>1100 - 1115 Dr Alan Goodey After the tsunamis in Samoa</p> <p>1115 - 1130 Dr Michael Cooper Paediatric anaesthesia in PNG</p> <p>1130 - 1145 Dr Phil Blum Resource-poor airway management</p>	<p>Demystifying anaesthesia for the critically ill Chair: Dr Geoff Shaw</p> <p>1030 - 1050 Dr Geoff Shaw ARDS - new concepts</p> <p>1050 - 1110 Dr Philip Cumpston The routine emergency</p> <p>1110 - 1130 Assoc Prof Geoff Gordon The perils of transporting the sick patient</p> <p>1130 - 1150 Dr Meher Chinthamuneedi Cardiovascular challenges in ICU</p>	<p>Cardiothoracic, vascular and perfusion SIG Chair: Dr David Daly</p> <p>1030 - 1100 Prof Gerard Manecke Emerging technologies in cardiovascular anaesthesia</p> <p>1100 - 1200 Prof Lee Fleisher Strategies to reduce risk for the cardiac patient having non - cardiac surgery: what is the evidence?</p>	<p>Moderated poster session: Case reports and case series</p> <p>Poster Moderators: Prof Talmage Egan Prof Alan Merry</p>	<p>W49 (0800 - 1200) The "key to me"-- process communication model (PCM) MR1&2</p> <p>W25 How to pass the primary exam! MR7</p> <p>W26 Transthoracic echocardiography (TTE) MR6</p> <p>W27 Workplace based assessment – the when, why and how? MR5</p> <p>W28 Minimally invasive haemodynamic monitoring MR3</p> <p>W29 Offsite: Cardiopulmonary exercise testing</p>	<p>P18 Neuroanaesthesia for elective brainstem surgery GR1</p> <p>P19 A paediatric anaesthetic triplet GR2</p> <p>P20 Peri operative pain management in the opioid dependant patient GR3</p> <p>P21 Management of the collapsed obstetric patient GR4</p>

1200 - 1330 Lunch and Health Care Industry Exhibition

Free afternoon – please see page 42 for optional activities

CPD PROGRAM APPROVAL

ANZCA CPD Points

For workshop credits to be claimed, a workshop *must be interactive*. If not interactive, credits should be claimed as per didactic sessions: Category 1/Level 1 (Group Learning/Passive Activities): 1 credit per hour.

Approval number for the Meeting is **1611** and goes under the following categories;

Workshops with no practical skills learning

Category 1/Level 2: 2 credits per hour
(CPD Program: Group Learning/Interactive Activities)

Workshops on practical skills and procedures

Category 3/Level 2: 3 credits per hour
(CPD Program: Practice Assessment/Self-Directed Quality Assurance Activities)

PBLD sessions

Category 3/Level 1: 2 credits per hour
(CPD Program: Practice Assessment/General Quality Assurance Activities)

QA sessions

Category 3/Level 2: 3 credits per hour
(CPD Program: Practice Assessment/ Self-Directed Quality Assurance Activities)

All other sessions during Meeting (moderated poster sessions, SIG sessions, debates, lectures, etc.)

Category 1/Level 1: 1 credit per hour
(CPD Program: Group Learning/Passive Activities)

Presenter at Meeting:

Category 4/Level 1: 1 credit per hour
(CPD Program: Education Development/Teaching Related Activities)

KEY

MR = Meeting Room (Christchurch Convention Centre)

GR = Galaxy Room (Crowne Plaza Hotel)

SCIENTIFIC PROGRAM TUESDAY 4 MAY

0830 - 1000	Plenary Session Chair: Assoc Prof Ross Kennedy	Town Hall Auditorium
0830 - 0915	Australasian Visitor and Douglas Joseph Professor: Prof Paul Myles (Australasian Visitors Lecture) Stochasticity in clinical medicine	
0915 - 1000	Christchurch ROC Invited Speaker: Prof Steve Shafer Unsolved mysteries of anaesthesia	

KEY

MR = Meeting Room (Christchurch Convention Centre)

GR = Galaxy Room (Crown Plaza Hotel)

1000 - 1030 Morning tea and Health Care Industry Exhibition

Concurrent Session 1 Town Hall Auditorium	Concurrent Session 2 James Hay Auditorium	Concurrent Session 3 Cambridge Room	Concurrent Session 4 Conference Rooms 1 and 2	Concurrent Session 5 Limes Room	Workshops	PBLD and QA
Why bad things happen to good people Chair: Dr Vanessa Beavis	Outcomes in Anaesthesia Chair: Assoc Prof David Story	Symposium on postoperative quality of recovery Chair: Assoc Prof Colin Royse	Looking after yourself and your family Chair: Dr Di Khursandi		W30 Anaesthesia and the iPhone (Offsite) W31 Paediatric spinal sonography MR6 W32 Advanced ultrasound guided block techniques MR5 W33 The trial viva: how to prepare your candidates for the final fellowship examination MR3 W34 CPAP in the peri-operative period MR1&2 W35 (offsite) More than just bloody questions: blood bank tour W36 (offsite) Cardiopulmonary exercise testing	P22 My patient won't wake up GR1 P23 Having fun with spinal surgeons... GR2 P24 You are called to the emergency department to help with a difficult airway... GR3 Q7 Quality assurance session 7 (acute and chronic pain) GR4
1030 - 1100 Mr Werner Naef Human factors: the air industry experience	1030 - 1100 Prof Paul Myles Alpha agonists and outcome	1030 - 1100 Assoc Prof John Faris "Gee, am I glad we had an echo" - the value of limited TTE in anaesthetic practice	1030 - 1100 Mr Paul Duke Are your children safe on the internet?			
1100 - 1130 Prof Alan Merry Complex systems and chaos	1100 - 1130 Prof Kate Leslie BIS and its effect on outcomes related to death, stroke and MI	1100 - 1130 Dr Michael Veltman Limited focused goal - directed transthoracic echo: haemodynamic echocardiography assessment in real time	1100 - 1130 Dr Ross Warring The anaesthetist's midlife GP check - up			
1130 - 1200 Mr Harry Waalkens QC Medico legal consequences	1130 - 1200 Prof Dan Sessler "Triple Low": low BIS, low MAC and low BP	1130 - 1200 Assoc Prof Colin Royse Training and quality assurance for limited echo	1130 - 1200 Dr Di Khursandi The third age of anaesthesia – retirement			

1200 - 1330 Lunch and Health Care Industry Exhibition

TIVA Chair: Prof Kate Leslie	Formal project session Chair: Dr Leona Wilson	Cognitive dysfunction: young and old Chair: Prof Tony Gin	Pushing the boundaries in simulation Chair: Dr Rowan Molnar	Medical education SIG: The new ITA Chair: Dr Karen Smith	W37 Ultrasound guided vascular access MR7 W38 Transthoracic echocardiography (TTE) MR6 W39 Anaesthesia in the real world MR5 W41 (offsite) More than just bloody questions: blood bank tour W42 (offsite) Hospital plant tour W43 (offsite) High pressure medicine	P25 Autistic children with educated parents GR1 P26 Acid - base and fluid management in a patient for a laparotomy GR2 P27 Playing Sherlock GR3 Q8 Quality assurance session 8 (obstetrics and gynaecology) GR4
1330 - 1400 Prof Talmage Egan Remifentanyl in my practice	1330 - 1500 Dr Anthony Barnard Walking versus lying to prevent hypotension following spinal anaesthesia for caesarean section: a randomised controlled trial	1330 - 1400 Assoc Prof Andrew Davidson Long term neurocognitive outcome after anaesthesia and surgery in children; is there a problem?	1330 - 1350 Assoc Prof Richard Riley Simulation outside the operating suite	1330 - 1345 Dr Lindy Roberts The revised ITA process - what is changing and what is not		
1400 - 1430 Prof Steve Shafer TIVA at extremes of age and weight	Dr Peter Carlin Midwife management of epidural analgesia in 2nd stage labour – a survey	1400 - 1430 Dr Brendan Silbert Post operative cognitive dysfunction: measurement and meaning	1350 - 1410 Assoc Prof Jenny Weller The anaesthetist as a team player: speed dating and other useful skills	1345 - 1405 Dr Rick Horton ITA: A training aid, not a bureaucratic chore!		
1430 - 1500 Assoc Prof Brian Anderson Are there still limitations for the use of target - controlled infusion in children?	Dr James Koziol The predictors and impact of core temperature at time of admission to ICU in adult cardiac surgical patients	1430 - 1500 Dr Francois Stapelberg Anaesthesia - triggering or fuelling delirium, alzheimer's and dementia	1410 - 1430 Dr Cate McIntosh Safer procedural sedation for endoscopy: no more learning by osmosis	1405 - 1425 Mr Ian Collens Keeping up with the times: a new process for ITA		
	Dr Phoebe Rose Audit, development and implementation of an evidence based post-operative nausea and vomiting management algorithm		1430 - 1450 Dr Stuart Marshall Smells like team spirit? Distilling team coordination into usable tools	1425 - 1445 Dr Damian Castanelli The new ITA: a good start?		
	Dr Balan Sivasubramaniam Evaluation of echogenicity of needles used in continuous infusion regional techniques					
	Dr Caroline Zhou Retrospective audit of ASA 4 and 5 patients assessed for non-elective surgery					

1500 - 1530 Afternoon tea and Health Care Industry Exhibition

Extreme physiology, How much can the human body take? Chair: Prof Barry Baker	Haute anaesthesia: moving your practice from basic sustenance to a gourmet meal Chair: Dr Mark Priestley	Blood, sweats and tears? Chair: Dr Tim McCulloch	Medical ethics Chair: Dr Karen Smith	Quality of recovery symposium Chair: Prof Alan Merry	W40 Debriefing after simulation: difficult group dynamics MR3 W44 Ultrasound guided vascular access MR7 W45 Advanced ventilation strategies in anaesthesia MR6 W46 Constructive feedback – how to prepare feedback that makes a difference MR5 W47 (offsite) Hospital plant tour W48 (offsite) High pressure medicine	P28 A child with arthrogyposis requiring orthopaedic surgery GR1 P29 Management of malignant hyperthermia GR2 P30 Maxillofacial trauma GR3 P33 DIY Echocardiography: friend or foe? MR4 Q9 Quality assurance session 9 GR4
1530 - 1600 Prof Michael "Monty" Mythen Doctors at altitude	1530 - 1600 Prof Jamie Sleigh Raw EEG: When to believe the magic BIS number and when to add a little balsamic vinegar to disguise the taste	1530 - 1600 Prof Peter Kam TRALI	1530 - 1700 Panel discussion of cases Panel: Assoc Prof Tim Dare Mr Martin MacFarlane Dr David Smyth Dr Charles Bradfield Mr Harry Waalkens	1530 - 1555 Prof Alan Merry Quality of recovery and safety - is there a common link?		
1600 - 1630 Assoc Prof Mike Davis Free diving	1600 - 1630 Dr Alex Konstantatos The ultimate PCA recipe	1600 - 1630 Dr Peter Flanagan Making transfusion safe - at what cost??		1555 - 1620 Dr David Wilkinson Postoperative quality of recovery scale (PQRS) - development of a new tool to measure postoperative recovery		
1630 - 1700 Assoc Prof Mike Hamlin Ironman or madman? The physiological demands and consequences of extreme ironman, triathlon and ultra-endurance training and racing	1630 - 1700 Prof Dan Sessler Some like it hot: peri - operative thermal care	1630 - 1700 Dr Richard Seigne Update on the 2001 National Health and Medical Research Council: clinical practice guidelines for the use of blood components		1620 - 1645 Assoc Prof Colin Royse Presentation of PQRS data Panel discussion		

1900 - midnight College Dinner, Westpac Arena

SCIENTIFIC PROGRAM WEDNESDAY 5 MAY

Plenary Session

Town Hall Auditorium

0830 - 0930

Controversies in Anaesthesia: Mini-debates

Chair: Assoc Prof Richard Riley

Enjoy the spectacle as our panel of highly opinionated clinical experts ruthlessly slaughter their opponents anaesthetic sacred cows. Tears may be shed.

Dr Mark Waddington (PRO) vs. Prof Jamie Sleigh (CON)

BIS is only for people who don't know how to give a proper anaesthetic

Dr Richard French (PRO) vs. Dr Charles Bradfield (CON)

TIVA is just for anaesthetists who want to complicate a good anaesthetic

Prof Warwick Ngan Kee (PRO) vs. Dr David Elliott (CON)

Anaesthetists should concentrate on being expert at giving an anaesthetic and not worry about being peri-operative physicians

Prof Mike Irwin (PRO) vs. Dr Tim Pavy (CON)

Anaesthetists should always use the best available drug, no matter what the cost

0930 - 1000

Morning tea

1000 - 1100

Plenary Session

Chair: Dr Richard French

The last lecture I'll ever give (at this meeting) - life skills, anaesthesia and philosophy

Prof Talmage Egan

Prof Michael "Monty" Mythen

Prof Steve Shafer

Prof Paul Myles

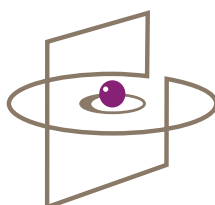

1100 - 1130

Closing Ceremony

Town Hall Auditorium

The Organising Committee would like to extend an invitation for all delegates attending Wednesday's scientific program to join them for lunch in the foyer of the Christchurch Town Hall.

Take the time to sit down, relax and enjoy the company of your colleagues prior to departing for home or an extended holiday!

HOW MEETS WHY

Clinical Practice and the Science Behind it
