Kia Ora, hello from Wellington, New Zealand

Welcome to the second newsletter for the 11th World Conference on Injury Prevention and Safety Promotion.

Call for abstracts - Open now!

We are now calling for abstracts that will inform and inspire debate during the conference. The key theme of Safety 2012 is 'connecting pathways for a vibrant and safer future'. If you have the latest research or information on injury prevention and safety we would love to hear from you. We're looking forward to seeing what you've got to contribute to make the 2012 conference one of most invigorating and successful yet!

We're aiming for a programme of presentations and papers that are thought-provoking, motivational and engaging. Please submit your abstract via the [conference website](#).

Scholarships available to attend Conference

To help get people to next year's conference, who can't afford to attend, the National Organising Committee is offering partial scholarships. Naturally, there are some conditions and a full list of the eligibility criteria will be available on the conference website in mid October. We're looking for people who are in the fields of injury prevention or safety, are from a developing or emerging country and have no other source of funding to get to Wellington.

If you apply for a scholarship, you'll also need to submit an abstract for oral or poster presentation to the conference.

Tell us more about travelling to New Zealand?

We're extremely proud to be hosting the 11th World Conference on Injury Prevention and Safety Promotion in Wellington, New Zealand. We're also aware that some people may think that it's a long way to travel.

It can be a long time sitting on the plane (two flights of about eleven hours from London). If you're from Asia or America, you're already halfway here!

The Chinese proverb says 'the journey is the reward'. In this case, the real reward will be when you arrive.

Firstly, the conference will be a valuable gathering of the world's leading experts in safety and injury prevention.

Secondly, New Zealand is often mentioned as a place most people want to visit in the world, making this conference the perfect excuse to visit New Zealand. Wellington was named as the 4th top city in the world to visit in 2011 by [Lonely Planet Best in Travel 2011](#).

Wellington has all the best aspects of New Zealand's natural beauty plus the vibrant culture of a modern capital. A big part of Wellington's appeal is its compactness - within reach of the country-side but jammed with the amenities you'd expect: cafes, museums, world-class restaurants and outstanding coffee. Wellington is also the home of the Royal New Zealand Ballet and the New Zealand Symphony Orchestra. Only minutes from the city centre you can experience amazing walks and hikes, and enough mountain-bike runs for the most fearless of adrenaline junkies. Wellington also boasts a variety of first-rate golf courses. Within 90 minutes of Wellington is the premium wine growing region of Martinborough.

We've updated the website with some useful links to tourism and accommodation sites, plus other general information about [New Zealand and Wellington](#), to whet your appetite and help you plan your visit.
