## Concurrent Sessions

## 2A: Transport across the Lifespan

Effect of a graduated driver licensing decal provision on the rate of crashes and citations among young probationary drivers

*Allison Curry*

The identification of risk-taking young drivers and targeted pre-licensing remediation of their poor driving behaviours

*Jennie Hill*

Participatory photography project gives voice to non-driving Pacifica and Maori youth

*Aimee Ward*

Characteristics of drivers referred by police to VicRoads: Evidence for indicators of declining driving competence

*Marilyn Di Stefano*

## 2B: Child Safety

Benchmarking progress on child safety action in Europe - the results of the 2012 Child Safety Report Cards

*Morag MackKay*

National action plan for child injury prevention – launching a roadmap for an injury-free childhood

*Grant Baldwin*

Situation of child injuries in Vietnam and interventions

*Lan Ngoc ThiTran*

Child injury-prevention and the UN convention on the rights of the child

*Elizabeth Towner*

## 2C: Treatment and Rehabilitation (includes disability)

Factors associated with functional outcomes 12 months after injury

*John Langley*

Predictors of long term outcomes following major trauma: A population-based study

*Belinda Gabbe*

Pre-injury and injury-related predictors of disability three and twelve months after injury: hospitalised and non-hospitalised

*Sarah Derrett*

Traumatic subtrochanteric fractures. Classification, intervention, complications and patient outcomes

*Cameron Gosling*

## 2D: Community Violence

'Towards a future without violence' a community violence prevention strategy for the North metropolitan area of Western Australia

*Deborah Costello*

Collaboration Multiplier: Advancing a multi- sectoral approach to preventing violence and unintentional injury

*Larry Cohen*

Multivariate techniques and geostatistical models applied to the homicides study in Cali, Colombia

*Delia Ortega*

Developing a community safety scorecard

*Billie Weiss*

## 2E: Falls

Using crowd-sourcing to drive innovation in injury prevention

*Nicole Murray*

Use of nested case-crossover study within a prospective cohort study to examine both fixed and transient risk factors for slipping

*Santosh Verma*

Preventing fall injuries among elderly by shock absorbing flooring

*Johanna Gustavsson*

Randomised controlled trial to reduce in-patient falls in hospitalised older people

*Denise Kendrick*

## 2F: Surveillance and Mortality

Assessing fieldworker reliability in a national study of injury mortality in South Africa

*Richard Matzopoulos*

Unintentional injury mortality in India, 2005: Nationally representative mortality survey of 1.1 million homes

*Jagnoor Jagnoor*

Epidemiology of, and surveillance of, media worker homicide in Iraq (2003-2011)

*Lucie Collinson*

The National Coroners Information System: A decade of challenges and achievements

*Jessica Pearse*

## 2G: Surveillance Injury Innovation around the World

Analysis of injury trends: Show me the elbow

*Minh T Do*

Development of a record linkage system to support injury surveillance and the evaluation of interventions

*Ronan Lyons*

How do I know it worked? Measuring the effectiveness of crime prevention and community safety policies and programs

*Peter Homel*

A public health model for injury surveillance and control: perspective from the field

*Peter Barss*

3.35pm – 4.00pm

## Afternoon Tea

4.00pm – 5.30pm

**Concurrent Sessions****3A: A Transport Walking, Cycling and Bike**

Cycling safety: Key messages of the international transport forum of the OECD's working group on cycle safety

*Julie Hatfield*

High rate of crashes at roundabouts involving cyclists can be reduced with careful attention to conflict paths

*Bob Cumming*

Bycyclists helmet use in a French city. Results from a follow-up study using a semi-automated video detection system

*Emmanuel Largarde*

A score card to evaluate pedestrian facilities in urban environments using walkability measures

*Ishani Dias*

On road riding practices among electric bikers in Suzhou

*Ji Yang, Wei Du, Brent Powis, Yihe Hu, Ming Wu*

Using spatial planning to prevent unintentional injuries

*Julie Mytton*

**3B: Burns and Fire Prevention**

Enhancing fire department home visits through improved program monitoring

*Eileen McDonald*

Experience from community based childhood burn prevention programme in Bangladesh: Implication for low resource setting

*Saidur Mashreky*

Survey of hot water temperatures in campgrounds: Elevated scalding risk and energy wastage

*Nick Wilson*

Still too hot: An examination of observed water temperature, water heaters characteristics and self-reported testing behaviour in a sample of urban homes

*Wendy Shields*

Emergency management of sever burn (EMSB) programme: A new dimension in burn management of Bangladesh

*Animesh Biswas*

The correlation between burn mortality rates and economic status of countries

*Michael Peck*

**3C: Button Battery Ingestion – addressing an emerging hazard internationally**

Battery ingestion hazard mitigation

*Doug Lee*

Button batteries - a hidden danger in every home

*Martin Rushton*

Regulators study of button batteries: Product designs, warnings and packaging

*John Jamieson*

Modifications of coin cells with anti-ingestion and encapsulation design features

*Jonathan Midgett*

Coin cell battery ingestion hazard mitigation strategies

*Jonathan Midgett*

Coin-sized lithium batteries pose an emerging global burn risk to children

*Angela Mickalide, Kate Carr, Eric Chalmers, Ann Weaver, Pamela Fuselli*

Design strategies to mitigate the hazard of button cell battery electrical burn injuries

*Gene Rider*

Preventing lithium coin cell battery ingestion: A five-pronged strategy

*Michael Babiak*

Energizer's approach to lithium coin cell battery ingestion

*Michael Babiak, Philip Cooper*

Resident advocacy to mitigate hazards of button battery ingestions

*James Harisaides*

Coin battery modification to prevent gastrointestinal injury from current flow

*Eli Baum, Carl Baum*

Button battery ingestion and insertion by children - an international approach to an emerging dangerous injury

*Eric Chalmers, Ruth Barker, John Jamieson, Kate Carr, Ann Weaver, Pamela Fuselli, Jonathan Midgett, Martin Rushdon, Mike Shepherd*

Batteries not included: Identifying disc battery injury in a health setting

*Ruth Barker*

Design of a safer lithium coin cell battery

*Jeongbin Ok*

**3D: Alcohol and Other Drugs**

Alcohol related harm in Wellington central business district

*Robyn Steel, Laurie Gabites*

Safer Bars: Reducing violence in and around licensed premises

*Deborah Costello*

Alcohol and road safety policy in Europe: Successes and failures
