**Tuesday 2 October 2012**

**Theme:** Safety, design and sustainability - adopting a ‘sustainable environmental’ approach to injury prevention

7.30am – 7.45am Registration desk open

8.00am – 8.45am Pre session Tea and Coffee

8.00am – 5.30pm Poster Sessions

8.45am – 9.05am Introduction, housekeeping and questions

8.55am – 9.20am Let’s talk about safety – can injury prevention do more harm than good?
  - Professor Ian Roberts

9.20am – 9.45am Solving the safety paradox – when making things less safe makes them more safe
  - David Engwicht

9.45am – 10.30am Panel
  - We don’t need more research, we need more implementation
  - Dale Hanson, Dr Leilei Duan, others to be confirmed
  - Chair: Professor Rod McClure

10.30am – 11.00am Morning Tea
Concurrent Sessions

1: Child Safety
A case-control study of toll bite risk factors in a domestic setting to children aged 3 years and under in Hong Kong

Tetsuya Nishii

Increscent result of implementation of sequential surveillance systems on drowning in the community

Charleyl Joss

mouse bite

1:00am – 12.30pm

1:30pm – 2.25pm

12.50pm – 1.20pm

12.30pm – 1.30pm

Concurrent Sessions

State of the Art Sessions

Interactive Poster Sessions

Lunch
2:35pm – 3:35pm
Concurrent Sessions

2A: Transport across the Lifespan
Effect of a graduated driver licensing decal provision on the rate of crashes and citations among young probationary drivers
Allison Curry
The identification of risk-taking young drivers and targeted pre-licensing remediation of their poor driving behaviors
Jennea Hall
Participatory photography project gives voice to non-driving Pacifika and Maori youth
Aimee Ward
Characteristics of drivers referred by police to VicRoads: Evidence for indicators of declining driving competence
Marilyn Di Stefano

2B: Child Safety
Benchmarking progress on child safety action in Europe: the results of the 2012 child safety report cards
Morag MacKay
National action plan for child injury prevention – launching a roadmap for an injury-free childhood
Grant Baldwin
Situation of child injuries in Vietnam and interventions
Lan Ngoc Thi Tran
Child injury prevention and the UN convention on the rights of the child
Elizabeth Towner

2C: Treatment and Rehabilitation (includes disability)
Factors associated with functional outcomes 12 months after injury
John Langley
Predictors of long-term outcomes following major trauma: A population-based study
Belinda Gabbe
Pre-injury and injury-related predictors of disability three and twelve months after injury: hospitalised and non-hospitalised
Sarah Derrett
Traumatic subtrochanteric fractures: Classification, intervention, complications and patient outcomes
Cameron Gosling

2D: Community Violence
‘Towards a future without violence’ a community violence prevention strategy for the North metropolitan area of Western Australia
Deborah Costello
Collaboration multiplier: Advancing a multi-sectoral approach to preventing violence and unintentional injury
Larry Cohen
Multivariate techniques and geostatistical models applied to the homicides study in Cali, Colombia
Delia Ortega
Developing a community safety scorecard
Billie Weiss

2E: Falls
Using crowd-sourcing to drive innovation in injury prevention
Nicole Murray
Use of nested case-crossover study within a prospective cohort study to examine both fixed and transient risk factors for slipping
Santosh Verma
Preventing fall injuries among elderly by shock absorbing flooring
Johanna Gustavsson
Randomised controlled trial to reduce in-patient falls in hospitalised older people
Denise Kendrick

2F: Surveillance and Mortality
Assessing fieldworker reliability in a national study of injury mortality in South Africa
Richard Matzopoulos
Unintentional injury mortality in India, 2005: Methodology and representativeness of a nationally representative mortality survey of 1.1 million homes
Jagnoor Jagnoor
Epidemiology of, and surveillance of, media worker homicide in Iraq (2003-2011)
Lucie Collinson
The National Coroners Information System: A decade of challenges and achievements
Jessica Pearse

2G: Surveillance Injury Innovation around the World
Analysis of injury trends: Show me the elbow
Minh T Do
Development of a record linkage system to support injury surveillance and the evaluation of interventions
Peter Homel
How do I know it worked? Measuring the effectiveness of crime prevention and community safety policies and programs
Peter Barss
A public health model for injury surveillance and control: perspectives from the field
Peter Beach
3A: Transport Modelling, Cycling and Bike Safety
Cycling safety: Key messages of the international transport forum of the OECD’s working group on cycling safety
Julie Hatfield
High use of mobiles at intersections and cyclists can be reduced with careful attention to conflict points
Ruth Jamieson
Bicycle lane use in a French city: Results from a follow-up study using a semi-automated video detection system
Emmanuel Largarde
A scorecard to evaluate pedestrian facilities in urban environments using walkability measures
Ishani Dias
Byclists’ helmet use in a French city. Results from an observational study
Bob Cumming
High rate of crashes at roundabouts involving cyclists can be reduced with careful attention to conflict paths
Julie Hatfield
Cycling safety: Key messages of the international transport forum of the OECD’s working group on cycle safety
Emanuel Largarde

3B: Buses and Fire Prevention
Enhancing fire department home visits through improved rapport programming
Erich McDonald
Experience from community based childhood burn prevention programs in Bangladesh. Implications for a low-resource setting
Michael Peck
Survey of hot water temperatures in contemporary Australian homes: Building block social environment safety
Michael Peck
High correlation between burn mortality rates and temperature, water heater’s characteristics and self-reported testing behavior in a sample of urban homes
Nick Wilson
Emergency management of severe burn (EMSB): A new dimension in burn management program: A new dimension in burn management
Saidur Mashreky
Emergency management of severe burn (EMSB) reported testing behavior in a sample of urban homes
Nick Wilson
Risk of scalding and energy wastage
Saidur Mashreky
Elevated scalding risk and energy wastage
Nick Wilson

3C: Button Battery Ingestion – addressing an emerging hazard internationally
Design of a safer lithium coin cell battery
Jeongbin Ok
Coin-sized lithium batteries pose an emerging global hazard
Ruth Barker
Button battery ingestion and insertion by children - an international approach to an emerging danger
Eli Baum, Carl Baum
Coin-sized lithium batteries pose an emerging global hazard
Ruth Barker
Button battery ingestion hazard mitigation strategies
Jonathan Midgett
Modifications of coin cells with anti-ingestion and encapsulation design features
Jonathan Midgett
Coin battery ingestion hazard mitigation strategies
Jonathan Midgett
Button batteries - a hidden danger in every home
Jonathan Midgett
Design of a safer lithium coin cell battery
Jeongbin Ok
Modifications of coin cells with anti-ingestion and encapsulation design features
Jonathan Midgett
Coin battery ingestion hazard mitigation strategies
Jonathan Midgett
Rational button battery ingestion and insertion by children - an international approach to an emerging danger
Jonathan Midgett

3D: Alcohol and Other Drugs
Preventing lithium coin cell battery ingestion: A five-pronged strategy
Gene Rider
F-badge electrical burn injuries
Doug Lee
Coin cell battery modification to prevent gastrointestinal battery ingestions
Jonathan Midgett
Battery electrical burn injuries
Doug Lee
Regulators study of button batteries: Product designs, warnings and packaging
Martin Rushton
Coin cell battery ingestion hazard mitigation strategies
Jonathan Midgett
Battery electrical burn injuries
Doug Lee
Modifications of coin cells with anti-ingestion and encapsulation design features
Jonathan Midgett
Coin battery ingestion hazard mitigation strategies
Jonathan Midgett
Rational button battery ingestion and insertion by children - an international approach to an emerging danger
Jonathan Midgett

3E: Self Harm (Suicide)
Mortality and non-fatal suicidal behaviour in the 20 years after a medically serious suicide attempt
Nicole Bourke
Suicide-related mortality in Vietnam in 2005-2010
Lan Ngoc Thi Tran
Suicide-related mortality in Vietnam in 2005-2010
Lan Ngoc Thi Tran
Impact of ‘Safe Community’ model on suicide prevention in Japan
Hisayuki Moriguchi
Impact of ‘Safe Community’ model on suicide prevention in Japan
Hisayuki Moriguchi
Suicide-related mortality in Vietnam in 2005-2010
Lan Ngoc Thi Tran
Suicide-related mortality in Vietnam in 2005-2010
Lan Ngoc Thi Tran

3F: Safe at Work: Workplace
Drivers of change in agricultural health & safety policy in Europe: Successes, failures and lessons learned
Dinesh Sethi
Drivers of change in agricultural health & safety policy in Europe: Successes, failures and lessons learned
Dinesh Sethi
Effect of drug testing programs on injury rate and severity in small and medium sized construction companies
Katharine Elliot
Impact of wellness programme to employee health
Tony Lower
Impact of wellness programme to employee health
Tony Lower
Alcohol related harm in Wellington central business district
Doug Lee
Drivers of change in agricultural health & safety policy in Europe: Successes, failures and lessons learned
Dinesh Sethi

4:00pm – 5:30pm Concurrent Sessions
3A: Transport Modelling, Cycling and Bike Safety
Cycling safety: Key messages of the international transport forum of the OECD’s working group on cycling safety
Julie Hatfield
High use of mobiles at intersections and cyclists can be reduced with careful attention to conflict points

</tbody>
</table>
11.00am – 12.30pm Concurrent Sessions

4A: Alcohol, Drugs and Transport

- Prevention of risky drinking and alcohol misuse amongst young adults: A randomized controlled trial in the emergency department
- Managing children's injury and assessing injury from child maltreatment
- What evidence is available on alcohol and injury hospitalisations?
- Co-occurrence of motor vehicle crashes, emergency department visits, and drug misuse

4B: Surveillance in Hospitals and Trauma Centres

- Measurement of falls in the elderly
- Economic data for falls in elderly people
- Changes in alcohol misuse
- Emergency department injuries linked to alcohol use

4C: Safe Communities

- Injury in the elderly
- A case study of a community-based intervention to reduce falls
- Injury prevention in low and middle income countries

4D: Family Violence

- Injury prevention in low and middle income countries
- Impact of the U-Visa on stopping violence against women
- The impact of family violence on health outcomes

12.30pm – 1.30pm Lunch

1.30pm – 2.25pm Interactive Poster Sessions

State of the Art Sessions

Fall prevention in different ages
- Terry Bunn

Concordance of identified drugs in injured drivers using computerized data
- Bronwen Wood

What has worked with recidivist drink drivers to reduce re-offending?
- Guohua Li

Relative and attributable risks of fatal crashes associated with drug use
- Gordon Smith

Also occurred with other injuries and what do we really know regarding alcohol and injury hospitalizations?
- Roy Rojas

4A: Alcohol, Drugs and Transport

Fall prevention in South Africa: Comparing two studies 10 years apart
- Newman-Boulox

The impact of the U-Visa on stopping violence against women
- Lomos

Evidence of the risk of CTV in preventing alcohol related assaults in a night-time economy
- Evans-Freeling

Web-based intervention for Aboriginal university students with hazardous drinking: Results from a randomised controlled trial
- Davis

4B: Surveillance in Hospitals and Trauma Centres

Impact on assaults, alcohol-related assaults and intimate femicide in South Africa: Comparing two studies 10 years apart
- Mayan Siman-Tov

Hazard regression models of early mortality in trauma patients
- Maya Siman-Tov

4C: Safe Communities

Injury prevention in low and middle income countries
- Porntippa Suriya, Arnon Nomprasert

The impact of safe community initiatives on helmet wearing rate and motorcyclists' death in 14 cities of Iran
- Alireza Moghisi

4D: Family Violence

Prevention of child maltreatment: Is there a need for a European policy?
- Neal Koos

The epidemiology of cutting or piercing injuries at work: Prevalence and risk factors
- McCarron

Preventing child maltreatment: Is there a need for a European policy?
- Koos

9.30am – 10.45am

11.00am – 12.30pm

1.30pm – 2.25pm

WEDNESDAY
Feasibility of a road traffic injury surveillance integrating police and health insurance datasets in the Dominican Republic

Louis-Rachid Salmi

Calculating the number of road traffic injuries based on a medical disability of one percent or more

Hans-Yngve Berg

The burden of road traffic injuries in Guyana: Time to prioritize road safety investments

Jeffery Lunnen

Integrated information system for solving traffic accidents and prevention at Ban Phai District, Khon Kaen, Thailand

Bamrung Adun

Interventional study on middle school students' bicycle injuries in the rural area

Li-ping Li

Development of assessment tools on safe settings for child and adolescent injury prevention

Juanita Basilio

Acting in the community interest: A sustainable NGO theatre-in-education model for delivering child safety education in schools

David Gribble

The Venom Patrol - An online educational resource for improving health literacy and for snakebite prevention

Ken Winkel

A model to evaluate safety communities (SC) in low and middle-income (LMIC) countries

Reza Mohammadi

Results of safe community development implementation in Vietnam in the period 2002-2011

Trang Quynh Thi Khieu

Measuring the sustainability of a community safety promotion model: Walking from the inside out

Dale Hanson

What do we need for injury prevention and safety promotion as evidence?

Namsoo Park

Preventing falls in older people: The New Zealand experience

Clare Robertson

Development of STEAD - a fall prevention tool kit for U.S. healthcare providers

Judy Sleeter

Evaluation of a Canadian primary care fall prevention training and resource package

Wendy Scott

The Quickscreen Tool - a validated falls risk assessment, developed and implemented in Australia for use in primary care

Anne Tiedemann

Developing, implementing, and evaluating injury care systems: Experiences from low- and middle-income countries

Hadley Herbert, Adnan Hyder, Manjul Joshipura, Junaid Raczak, Kent Stevens

Identification of crash and fall risks during the cycling mount and dismount actions in triathlon competitions

Cameron Gosling

Planning for implementation: Use of intervention mapping (Step 5) in two sports safety intervention case studies

Alex Donaldson

Development of risk assessment systems of child's femur and forearm fracture due to air-filled play equipment and recommendation regarding its safe use

Yuki Tokoro

Removing man-made jumps from snow parks reduces the risk of severe ski patrol reported injuries sustained by skiers and snowboarders

Claude Goulet

Prevention of falls in older people: The New Zealand experience

Clare Robertson

Development of STEAD - a fall prevention tool kit for U.S. healthcare providers

Judy Sleeter

Evaluation of a Canadian primary care fall prevention training and resource package

Wendy Scott

The Quickscreen Tool - a validated falls risk assessment, developed and implemented in Australia for use in primary care

Anne Tiedemann

Developing, implementing, and evaluating injury care systems: Experiences from low- and middle-income countries

Hadley Herbert, Adnan Hyder, Manjul Joshipura, Junaid Raczak, Kent Stevens

Identification of crash and fall risks during the cycling mount and dismount actions in triathlon competitions

Cameron Gosling

Planning for implementation: Use of intervention mapping (Step 5) in two sports safety intervention case studies

Alex Donaldson

Development of risk assessment systems of child’s femur and forearm fracture due to air-filled play equipment and recommendation regarding its safe use

Yuki Tokoro

Removing man-made jumps from snow parks reduces the risk of severe ski patrol reported injuries sustained by skiers and snowboarders

Claude Goulet
### Concurrent Sessions

#### 4.00pm – 5.30pm

**6A: Child Safety Workshop**

- Behavioral approaches to child injury prevention: Successes, challenges and future directions
  - David Schwebel
- Parenting interventions to prevent unintentional injury: Evidence-based strategies that address the safety for young children and playground safety for older children
  - Andrea Gielen

#### 6B: Community Violence

- Analysis on the incidence and relevant risk factors of campus violence among college students in Shanghai
  - Hong Chang, Chi-Guo, Dai Jinfang
- Risk of assault among education specialists in the United States: A case-control study
  - Susan Gerberich
- Injury prevention among friends: The benefits of school connectedness
  - Rebekah Chapman
- Football events and their association with interpersonal violence deaths
  - Alvaro Sanchez Ortiz
- Hospital referral to a community program for youth injured by violence: A feasibility study
  - Carolyn Snider

#### 6C: Family Violence Workshop

- Brokering information to support family violence prevention and intervention efforts in New Zealand
  - Janet Fanslow, Nicola Paton, Gay Richards
- Violence Intervention Programme (VIP): Improving New Zealand’s health system response to family violence
  - Jane Koziol-McLain
- National leadership and interagency coordination to prevent family violence
  - Richard Wood
- The ‘It’s not OK’ campaign: Creating change to end family violence in New Zealand
  - Sheryl Hann, Teresa Pomeroy

#### 6D: Falls

- Current fall prevention activities at the U.S. Centers for Disease Control and Prevention
  - Judy Stevens
- Senior safety - a study of fall prevention in 16 Norwegian municipalities
  - Eva Vaagland
- Increasing routine vitamin D prescription to aged care residents in New Zealand: Giving residents the D-Fence against falls
  - Mooch Williams
- Fall related injuries: A retrospective medical review study in India
  - Shanthi Johnson
- Cost of falls injury hospitalisations in older adults
  - Finn Nilson

#### 6E: Safe Communities

- Can the feeling of being safe be dangerous? A case-study
  - Greg Hart
- “FLIP” a method for planning community safety promotion programs: Finding the right treatment begins by making the right diagnosis
  - Dale Hanson

#### 6F: Australasian approaches and perspectives on workplace safety promotion and regulation

- Health benefits of work
  - Paul O’Connor
- Leadership and culture under the Australian work health and safety strategy 2012-2022
  - Rex Hoy

#### 6G: Water Safety

- Benchmarking Australian children’s swimming and water safety skills and knowledge: Challenges and lessons learnt
  - Amy Parker
- Children and drowning in Vietnam
  - An Nguyen Trong
- Association between swimming lessons, vaccination, and drowning in Taiwan
  - Alany Liao
- Effective practices: An immediate collaborative response to prevent further net fishing drowning among Pacific peoples
  - Sandy Harrop
- Bingeing on the Beach: An exploratory study of alcohol consumption, knowledge, attitudes and behaviour of young beachgoers
  - Kerrianne Watt

### WEDNESDAY

**Conference Dinner at Te Papa**

Kindly sponsored by Fulton Hogan
Thursday 4 October 2012

**Theme:** Translating research and policy - the 'implications/impacts' of research and policy on promoting injury prevention

<table>

</table>
7A: Evaluating Road Safety Interventions: Workshop

**Evaluating road safety interventions: Lessons learnt from the first two years of a multi-country approach**

*Andreas Achauer*

Cell phone use and traffic crash responsibility: A capability analysis of collisions involved in drivers.

*Mark Ambric*

Cell phone use while driving in five Middle East cities: A cross-sectional study.

*David Elrini, Ricardo Perez, Martha Nig, Elia Adil***

Jeffrey Lawless, Anna Chauvon

Are road traffic accidents preventable among drivers with some known patterns?

*Guillermo Aragon*

Differences in the prevalence and characteristics of distracted driving in eight countries, 2011.

*Rebecca Naumann*

Using in-depth crash data to assess the role of driver inattention and driver distraction in crashes.

*Vanessa Beanland*

Driver sleepiness and risk of motor vehicle crash injuries: A population-based case control study in Fiji.

*Josephine Herman*

7B: Transport, Distraction and Fatigue

**Evaluating road safety interventions: Lessons learnt from the first two years of a multi-country approach**

*Abdulgafoor Bachani*

Cell phone use and traffic crash responsibility: A capability analysis of collisions involved in drivers.

*Mark Ambric*

Cell phone use while driving in five Middle East cities: A cross-sectional study.

*David Elrini, Ricardo Perez, Martha Nig, Elia Adil***

Jeffrey Lawless, Anna Chauvon

*Guillermo Aragon*

Differences in the prevalence and characteristics of distracted driving in eight countries, 2011.

*Rebecca Naumann*

Using in-depth crash data to assess the role of driver inattention and driver distraction in crashes.

*Vanessa Beanland*

Driver sleepiness and risk of motor vehicle crash injuries: A population-based case control study in Fiji.

*Josephine Herman*

**Transport, Distraction and Fatigue**

**Evaluating road safety interventions: Lessons learnt from the first two years of a multi-country approach**

*Andreas Achauer*

Cell phone use and traffic crash responsibility: A capability analysis of collisions involved in drivers.

*Mark Ambric*

Cell phone use while driving in five Middle East cities: A cross-sectional study.

*David Elrini, Ricardo Perez, Martha Nig, Elia Adil***

Jeffrey Lawless, Anna Chauvon

Are road traffic accidents preventable among drivers with some known patterns?

*Guillermo Aragon*

Differences in the prevalence and characteristics of distracted driving in eight countries, 2011.

*Rebecca Naumann*

Using in-depth crash data to assess the role of driver inattention and driver distraction in crashes.
