

You are cordially invited to a free **online interactive Webinar**:

# How to Write an Abstract

Presented by:

**Hank Weiss, PhD, MPH**

**Director, Injury Prevention Research Unit  
University of Otago**

The purpose of this webinar is to help researchers and especially practitioners prepare for submitting abstracts to the [Safety 2012 World Conference](#) being held in Wellington in October, 2012.

---

**Wednesday, 1 February, 2012**  
**12.00-1:00pm** (New Zealand Time)  
([Check your local time with a world clock](#))

---

Please follow these easy steps to RSVP, prepare and join the Webinar from your computer:

1. **RSVP** (<http://tinyurl.com/3ek3qpo>)
2. **PRE-TEST** (<https://connect.otago.ac.nz/setup>) audio prior to the webcast (not necessary if you have used Adobe Connect software recently). *See next page for more details on getting your computer ready.*
3. **JOIN the Webinar** (<https://connect.otago.ac.nz/ipru/>) five or ten minutes before the starting time shown above. Login as a Guest with your full name (expect a little delay while the software loads).

**After** the Webinar, please fill-out the evaluation [survey](http://tinyurl.com/23xgvk) (<http://tinyurl.com/23xgvk>).

✧ DETAILED ADOBE CONNECT COMPUTER SETUP INFORMATION & HELP ✧

You should have a PC or Mac with speakers or a headset. People may log on through individual computers or share a common computer connection. You may interact by either microphone or text messaging. No telephone audio conferencing is available for this broadcast. A webcam is optional.

Most computers have Adobe flash already installed. If not, or you need to upgrade, go the [Adobe Flash download site](#).

- <http://get.adobe.com/flashplayer/>

If you have not previously used Adobe Connect, participants should do an audio setup ahead of time by using the [Audio check link](#). This is not to be used for actual Webinar, but for setup only.

- <https://connect.otago.ac.nz/setup>

[Meeting connection diagnostics](#). Use this link to double check your connection and Flash software. The Connect "add-in" is not required.
